Phone, Data and Wireless Connectivity

Most multi-tenant facilities (residential/office/retail) possess hidden savings and/or revenue generating opportunities in the area of telecommunications, internet, wireless and cable provider services. For years, the major Carriers (AT&T, Verizon, Sprint, Comcast, Spectrum, and Direct TV) have taken advantage of the Multi-Tenant Residential Property market. We have developed a package of services that will turn these services into a revenue stream.

We have experience in the following industries!

Multi-Tenant Residential Properties
 School Districts /Universities
 Shopping Mall Developers

Low Income Housing
 Multiple Real Estate Offices
 Mobile Home Parks
